Technical Skills

Languages: JavaScript, TypeScript, Python, SQL, HTML5, CSS

Developer Tools: Postman, Git, Docker

Libraries/Frameworks: React.js, Next.js, Node.js, Express.js, React Native, Nest.js, Prisma, Tailwind CSS, GSAP, Socket.IO, MQTT

Databases: MongoDB, MySQL, PostgreSQL, Supabase

AI/Data: LLM Integration, RAG Architectures, Vector Databases, Analytics Dashboard

Work Experience

BariKoi Technologies Limited — May 2026 – Present

Software Engineer — *Dhaka, Bangladesh*

- Developed and maintained modern frontend applications and dashboards for **location intelligence**, **routing**, and **geospatial data visualization** using **React.js**, **Next.js**, and **TypeScript**.
- Implemented **REST API** integrations and interactive data visualization features to support mapping, survey, and business analytics platforms while ensuring responsive user experiences.
- Collaborated with cross-functional teams to deliver scalable solutions, improve application performance, and maintain clean, production-ready frontend architecture.

Betopia Group — December 2025 – April 2026

Full-stack Developer — *Dhaka, Bangladesh*

- Developed and maintained **RESTful APIs** using **Node.js** and **Express.js** to support mobile applications built with **Flutter** and the **React.js** admin dashboard.
- Designed and implemented responsive, user-friendly frontend interfaces for the admin dashboard using **React.js**, **ShadCN UI**, and **Tailwind CSS**, based on **Figma** designs.
- Collaborated with design and backend teams to ensure responsive, accessible user interfaces.

Bitsec — September 2025 – December 2025

Frontend Developer Intern — *Remote*

- Developed and maintained **headless WordPress** projects integrated with **Next.js** for modern, scalable frontends.
- Built and optimized web applications using **Remix** and **Next.js**, focusing on performance and SEO.
- Implemented **REST API integrations** and META API to streamline content delivery and improve data flow.
- Implemented smooth, interactive animations using **GSAP**, enhancing user experience and engagement across key UI components.
- Collaborated with design and backend teams to ensure responsive, accessible user interfaces.

Beyond Innovation Technology LTD. — August 2024 – December 2024

Internship Trainee — *Dhaka, Bangladesh*

- Developed and maintained web applications at **Beyond Innovation** using **MERN stack**.
- Built and integrated **RESTful APIs** with **Express.js** to support frontend and third-party consumption.
- Created responsive, accessible user interfaces with **React.js** and **Tailwind CSS**, ensuring cross-device compatibility.
- Collaborated on end-to-end feature development including **backend logic**, **API design**, and **frontend integration**.

Projects

SkyLine | *Live Website* | *Source Code* — **Next.js | TypeScript | Tailwind CSS | GSAP | Amadeus API**

- Built a responsive **flight booking platform** with real-time data from the **Amadeus API**, supporting one-way, round-trip, and multi-destination searches.
- Implemented smooth **GSAP** animations for enhanced user experience and optimized performance using a component-based architecture and responsive design.

Automation Flow Builder | *Live Website* | *Source Code* — **Next.js | React Flow | Express.js | MongoDB**

- Built a visual email automation builder allowing users to design workflows using action and delay nodes within a validated Start-to-End flow.

- Implemented background execution of automation steps, including time-based delays and email delivery, using **Express.js** and **MongoDB**.
- Developed full CRUD functionality with test-run support, enabling users to create, edit, delete, and test automations without keeping the UI open.
- Designed a clean and intuitive flow editor using **React Flow** and a responsive UI with **Next.js**.

CasperAI | *Live Website* | *Source Code* **Next.js** | **TypeScript** | **Supabase** | **Clerk**

- Built **CasperAI**, an AI companion platform with user authentication via **Clerk**, session history, and interactive elements.
- Integrated **Supabase** for real-time database management and focused on delivering a seamless, engaging user experience with a responsive, modular UI.

CourierPro | *Live Website* | *Source Code* **Next.js** | **Node.js** | **MongoDB** | **Socket.IO** | **Google Maps API**

- Developed **CourierPro**, a full-stack logistics platform enabling parcel booking, intelligent delivery agent assignment, and real-time tracking.
- Integrated **Google Maps API** for optimized route visualization, used **Socket.IO** for live updates, and built a scalable backend with **Node.js/Express.js** and **MongoDB**.

Education

BRAC University **Expected Graduation: May 2026**

Bachelor of Computer Science, Minor in Finance *Dhaka, Bangladesh*

- **CGPA: 3.34**
